Re: Letter of Support for the Eagles Nest Acquisition and Demolition Project

Dear Reviewers:

I am a resident, property owner, business owner, or community member of Red Lodge, Montana, and I am writing to support the City of Red Lodge's FEMA funding applications for the Eagles Nest Acquisition and Demolition Project.

The proposed project would acquire and demolish flood-prone structures on two properties located at 702 Broadway Avenue South and 704 Broadway Avenue South, which were damaged during the June 2022 Rock Creek flooding. After acquisition and demolition, the properties would be converted to open green space and maintained to support floodplain function, public safety, and long-term community resilience.

I support this project because it will permanently reduce flood risk, remove damaged structures from the floodplain, help restore natural floodplain functions along Rock Creek, and reduce future costs associated with emergency response, recovery, and repeated flood damage.

**This project is important to Red Lodge because:**

- It will reduce risk to people, property, and emergency responders during future flood events.
- It will help restore open space and natural floodplain function along Rock Creek.
- It will help the community recover from and become more resilient after the June 2022 flooding.
- It is a long-term solution that avoids repeated flood damage to vulnerable properties.
- It supports responsible use of public funds by reducing future disaster recovery costs.
