

MONTANA IS BEAR COUNTRY

HELP US KEEP PEOPLE SAFE & BEARS WILD

Keep food away from bears

- Store attractants indoors or in bear-resistant garbage cans
- When you leave, store garbage and attractants in a secure location or take it with you
- Never feed bears. A fed bear is more likely to be a danger to people.

Avoid bear encounters

- Be aware of your surroundings
- Make noise (such as singing or talking loudly)
- Travel in groups
- Carry bear spray and know how to use it
